Contents

- My System
- Configuration file

My system

- macOS 13.1 (Ventura)

Vi

```
start cmd:> which vi
/usr/bin/vi

start cmd:> vi --version
VIM - Vi IMproved 9.0 (2022 Jun 28, compiled Nov  5 2022 00:19:23)
macOS version - arm64
Included patches: 1-639
```

Configuration file 1/2

- $(HOME)/.vimrc
- contains Vimscript code
    - Vimscript allows empty lines
    - Vimscript uses comments introduced by "
- vi runs that code every time you open vim
- find location of .vimrc
    - open vi
    - run : echo $MYVIMRC

Configuration file 2/2

```
filetype plugin indent on "detect filetype and indents automatically
set nocompatible    "run only in vi improved mode
syntax on           "enable syntax highlighting
set autoread        "re-read a file that changed outside vim
set background=dark "set a dark background
set laststatus=2    "show status bar always at bottom of window
```
